Per the conversation this afternoon, here is OGC's redline. If we might be able to schedule 45 mins on Thursday or Friday, I think we could flesh out the section "C" parts that we discussed. Thanks!

Begin forwarded message:

Subject: Quad Oa: redline

Please find attached redline/bubbles doing two things:

- (1) Executing the revision of the existing draft along the lines discussed today;
- (2) Flagging certain issues for OAR where further changes may be advisable before transmission to OMB (if possible) or during interagency (if not possible).
 - o These are in two groups: bubbles at 10, 29, 39, and 57 all address one specific question; other issues are raised at 40, 58, 59-60, 65, 67, 69, 70, 72, 82, 92, 93.
 - o All other edits/bubbles should be executable/addressable by OGC in the first instance.

ARLO will begin to draft "Section N.A," in consultation with David Harlow and me.

OAR, please transmit to OAQPS/OAP so they have a sense of what this thing is looking like now, and in case they want to start looking at the issues flagged in (2).

My understanding is that we're looking to have a complete revision by middle of next week.
